## and what have you

by BOB CRAIG

The third annual Junior Rodeo sponsored by the Hamlin Riding Club gets underway today and if early indications held true this should be quite a rodeo. Members working on it are expecting about twice as many contestants this year as last year.

The rodeo has grown from a small beginning into a big affair because of the dedication of the Riding Club members. It can be a big asset to the town if the people want to make it one.

Let's all give the visiting contestants and fans a big West Texas welcome and let them know we are proud to have them here.

The Jaycees will have their ducking tank set up at the rodeo grounds this year and if there is someone you would like to get even with, this is your chance. Just talk them into getting on and then duck them.

Chief John McCurdy tells me that he has a bicycle that his department recovered and if the owner will come by the station and identify it they can pick it up.

The following newsletter is from Representative Leon Thurman.

The Governor of the State of Texas has called a Special Session of the Legislature for July 10, 1961. He has claimed that it is costing the taxpayers of the State over \$6,000, per day until the tax problem is solved. If this is correct why has he waited until July 10, 1961, to call a Special Session? It would seem that he would have tried to save the people this \$6,000, per day and called the Legislature back the next day.

Any one has to figure the loss in revenue also to arrive at the cost of any delay. \$350,000,000. tax bill which have gone into effect on September 1, 1961 cannot now go into effect until 90 days after the special session. This will be at least November 10, a loss of 70 tax paying days. The tax bill is almost a million dollars a day in loss of taxes. One can see the cost to the taxpayers by the delay.

The Governor wanted to take a trip to the 50th state in June. He will be able to take the trip at the cost of the taxpayers to the tune of about \$70 million dollars.

All of the people have agreed that any tax that will raise \$350 million has to have a bulk of sale taxes. People should be honest and realize that only people pay taxes. Taxes may be levied on any item, but it is passed on the consumer. We should call a tax bill what it really should be called.

We should appreciate the people letting us know what type of taxes they feel would be the best for this part of the State. We will be governed by the replies we receive in regard to taxes.

We are still a candidate for Speaker in the 58th Legislature. At the present time we are the only Middle-of-the-Road candidate. There is one conservative and one liberal announced candidate. There may be others later. We plan to make a race and try to be elected. It would be good for this part of the State to have a Speaker. I am happy to have a chance to be the next Speaker. I believe a good Speaker can have a lot to do with getting the job done in the 140 days of the regular session and not have the taxpayers to pay for special sessions.

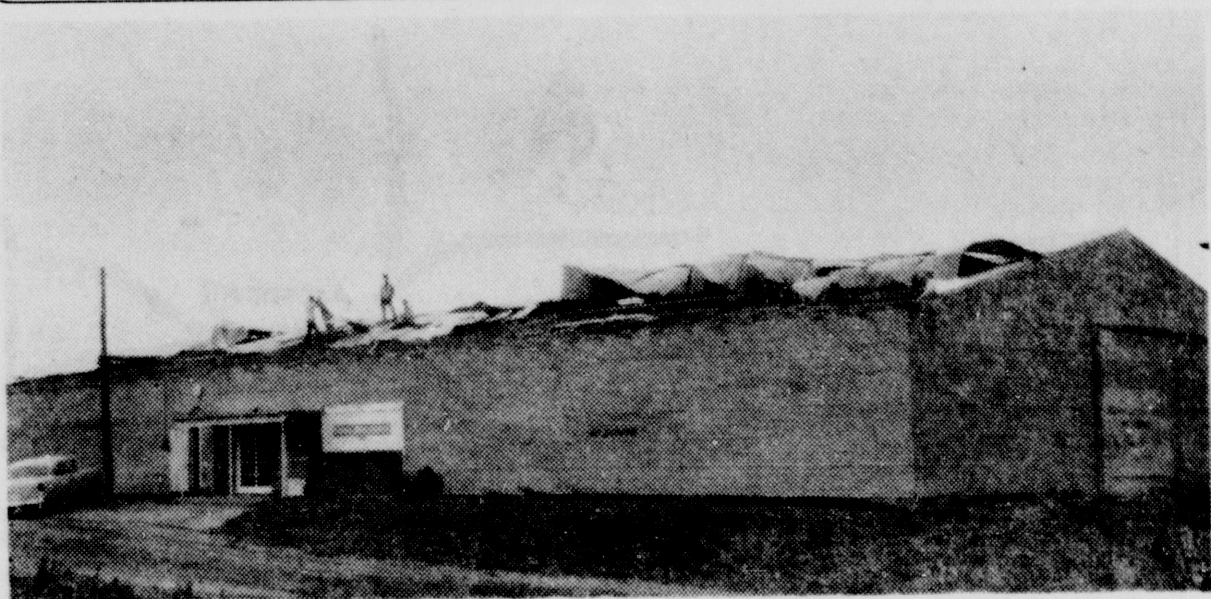

Any one having problems are requested to contact us and we try to help in every possible way.

### Local Pastor, Rev. Leonard Hartley Named on Board

DALLAS (Spl.) — The Rev. Leonard Hartley, pastor of the First Baptist Church, Hamlin, has been named to the 191-member executive board of the Baptist General Convention of Texas.

The action came here this week during the regular quarter-annual meeting of the board, highest policy making body for more than 1½ million Texas Baptists short of the denomination's state convention.

The Rev. Mr. Hartley replaces the Rev. James Easterwood, pastor of the First Baptist Church, Anson.

In other action the board adopted a record \$14,383,194 world missions budget to be submitted to the state Baptist Convention in November and told Baptist schools and hospitals to stop borrowing money from the federal government.

The policy change was incorporated in a 10-point statement of interpretation of church-state separation that opposed government grants and loans for building construction at religious institutions.

Final action on the statements of interpretation must come from messengers to the annual Baptist General Convention of Texas meeting in Austin, Tex. November 7-9.

The 10-point statement opposed as a violation of spiritual and moral foundation as well as the constitutional interpretation of church-state separation: (1) outright government grants of direct aid to religious institutions (2) loans for building construction and (3) government surplus property offered to religious groups at a reduced rate.

### Two From Here Attend Boy's State in Austin

Hamlin representatives to Boy's State, which was held last week in Austin, were Stanley Austin and Bill Richey.

The boys were selected by the faculty as outstanding citizens and future leaders of our city.

Boy's State, whose motto is, "learning by doing," is just what the name implies. The boys, representatives from all over the state, campaign for offices; an election is held and the victors actually serve in the offices at the state capital for one day. Each boy is assigned to a group which is designated as a city.

Bill, son of Mrs. Jack Richey, ran for a position in the State Supreme Court but was defeated by only three votes. He did serve as Justice of the Peace in his city of Winters.

Stanley, son of Mr. and Mrs. James Austin, was appointed to serve on the State Turnpike Commission. His city, Burkhead, won the basketball tournament. Other sports, in which each city participated, were football, volleyball and basketball.

The boys are sponsored jointly by the Rotary Club, Lions Club and the Sylvester American Legion Post.

One of the featured attractions of the first night will be a wagon race by members of the visiting Riding Clubs as contestants. One man will ride in a kids wagon while another will pull him on horseback around a barrel and back to the finish line. The winner will be judged on time.

According to Dr. E. J. Hawkins, president, four inches of sand had been spread over the arena to curtail the dust that plagued the rodeo last year.

## STATE CAPITAL Highlights AND Sidelights

by Kern Sanford

AUSTIN, TEX.—See Texas first this summer. Texas Highway Department will help you plan a good time.

"Many Texans have never seen their own state through a tourist's eyes," says State Highway Engineer, D. C. Greer. They're unaware of the pleasures immediately available to them via Texas' excellent highway system.

For example, Greer noted, Texas has:

1. One National Park (Big Bend).
2. Four National Forests.
3. More than 600 miles of coastline.
4. More than 50 mountains over 6,000 feet high.
5. Numerous scenic caverns, inlakes, old cattle trails, restored forts, monuments and museums.
6. More than 50 state parks for outdoor recreation including water sports and camping.
7. Some 1,000 roadside parks where travelers may rest or picnic.

Highway Department will send maps descriptive literature on points of interest and special events upon request without charge. Those writing should indicate the part of the state they want to visit and the sort of things they would like to see and do.

Address the Texas Highway Department, P. O. Box 5064, Austin 31.

**TASK FORCE FOR TAXES**—Gov. Price Daniel has named a 19-member committee to study Texas tax problems and recommend a plan for raising some \$35,000,000 for the next two years.

All the 19 appointees are in position causing them to have a strong interest in seeing sufficient money raised for coming state appropriations. They include the chairman of the governing boards of the educational, welfare and hospital systems and officials of a number of school-connected associations.

Their report is to be ready prior to July 10, opening date of the special legislative session.

**WHAT'S IN A NAME**—Pro-sales tax legislators declared that Governor Daniel is merely calling "a rose by another name" in his labeling of what is and what is not a sales tax. Sen. Wardlow Lane and four

House members presented "their side of the story" in a formal answer to the governor's report to the people on the regular session failure to pass a tax bill.

Any \$35,000,000 tax program, including the governor's, will have to run heavily to sales taxes, whatever they're called, said the lawmakers. They recommended "telling the truth about it."

Governor Daniel announced he had received a heavy volume of mail since his talk, with the sentiment running 6-to-1 in favor of his program.

Several legislators said this was contrary to the way their mail was running.

**TROUBLES ALL OVER**—To make things worse, Comptroller Robert S. Calvert reported that some of Texas' prime sources of tax revenue seems to be dwindling.

Oil production taxes for the nine months ending May 31 were \$92,110,769, down by \$3,000,000 from the same period a year ago and down \$12,000,000 from the year before that.

Gasoline taxes, which have spiraled up to at about 5 percent a year, have hit a slowdown. They are expected to be about \$129,000,000. This is identical to the same nine months period of a year ago.

Corporation franchise taxes were also down to \$51,542,964 for this year, a drop of about \$7,000,000 from last year.

One bright spot was in "sin taxes." Cigarette taxes brought in \$7,821,931 during May compared with \$6,310,562 for April. Taxes on alcohol beverages (beer, wine and liquor) were up from \$2,672,947 in April to \$2,835,650 in May.

But poll taxes were down from \$2,818,527 in 1960, the presidential election year, to only \$1,827,574 for 1961.

Despite everything, the deficit in the state general revenue fund dropped in May to \$78,848,137 from a high of \$102,000,000 in April. Hopes are that it will go even lower, not to exceed \$63,000,000 by August 31, the end of the fiscal year.

**SOME CHANGES MADE**—Despite the bog-down on tax bills, the Legislature did add quite a bit to the law of the land in its recent session. Among noteworthy changes:

1. Old age pensioners, beginning next January 1, can receive help with their hospital, doctor and nursing home expenses. Any state-licensed hospital or nursing home will be eligible for participation in the program.

2. Filing fee for candidates for statewide office will be \$1,000. Previous fee for candidates in special statewide elections was \$50. This brought out 71 candidates in the recent special senatorial race.

3. Persons who refuse to hang up when a party telephone line is needed for an emergency call will be subject to fine. Notice will be printed in this year's new telephone directories.

Not all these bills have been signed, but the governor has indicated no opposition.

**SMALL LOAN LAW URGED**—Atty. Gen. Will Wilson has urged Governor Daniel to add loan company regulations to the list of subjects which may be considered in the upcoming special session.

At present the governor has limited the session to revenue and appropriations bills. Only subjects included in the governor's "call" may be considered.

## NEINDA PHILOSOPHER SAYS EFFICIENCY IS NOT THE ANSWER FOR SMALL FARMS OR BIG CITIES

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 discusses efficiency this week, but we can't say with how much success.

Dear Editor:

I realize that while whole countries are disappearing these days, worrying over the disappearance of the so-called family-type farm seems like a waste of time if not a misapplication of thought, but according to an article I read in a newspaper last night, a lot of people are concerned about this matter.

But I'm not as interested in the actual disappearance of the small farm as I am in what these people think will bring it about.

According to them, inefficiency is the cause. The small farmer has got to get more efficient if he expects to stay on his farm, they argue.

I don't know about this. In my own case, I don't expect to get any more efficient, and I don't expect to move off this Johnson grass farm. People confuse efficiency with bigness. To me, a four-row cultivator is something you can work your land with in half the time it took with a two-row outfit, but to other people it's something you can work twice as much with in the same long hours.

Efficiency can be overdone. For example, in this same newspaper I was reading last night I noticed that a contest was held in New York the other day to see which was the fastest way to get across midtown Manhattan. The results showed you can cross this center of American culture and efficiency about as fast in a horse and buggy as you can in a car, and even on foot you won't be far behind.

Efficiency has produced automobiles in such numbers they are becoming useless in big cities, and cities themselves in a special session.

Wilson said that, by beginning where the last session left off, lawmakers should be able to pass a loan bill quickly. A regulatory bill was passed by the House last session, but opposing forces came to a deadlock in the Senate.

Governor Daniel has evidenced coolness toward considering anything else until a revenue-and-appropriation agreement is reached—not even his pet escheat bill.

Also being asked for special session consideration is a bill to increase unemployment benefits which failed in the regular session. It passed on second reading in the House, but never got any further. HE'S STILL JUDGE—A district conviction cannot be thrown out because the judge of the court had not paid his Bar dues, the Court of Criminal Appeals ruled.

In the case at issue, the defendant was sentenced to 10 years for theft. He sought his freedom on grounds that the judge of the trial court, because failure to pay dues, was not a member of the State Bar of Texas.

Appeals Court ruled that the judge was qualified for his office under the requirements of the Texas Constitution and the conviction was upheld.

## BUCKET SEATS ALONE DO NOT A MONZA MAKE

■ Gee! ■ Little did we know, when we introduced the Corvair Monza last year, that we were starting a Big Thing. We just thought it would be pleasant if you could buy a car that treats you, the driver, like you want to be treated. ■ The bucket seats, of course, are the most obvious evidence of our desire to please you. But they're not the most important thing. No sir. What's really vital is the way a Monza handles—something nobody in the U.S. has yet copied. Or can copy. Because Corvair is the only rear-engined car made in this country, and you know what that means: steering light as thistledown. (You even park this one more easily, it steers so briskly.) Beautifully balanced braking—the car stays level even under panic braking, which we hope you'll never have to do. Traction and more traction, so you don't become a stick-in-the-mud. The kind of cornering that's sheer joy to experience. ■ You get more: a fully independent suspension that blots out road shocks before they can ruffle you. Clean, crisp styling. Thoroughgoing economy, from purchase price to operating cost. ■ You're not going to be satisfied with bucket seats alone, are you?

Planning today  
for tomorrow's growth

To keep pace with the growth of our service area, we are engaged in a continuing program of expansion.

But of more importance, we are planning for additional growth in the years ahead, because the facts convince us it is coming.

Tomorrow's growth plans are on our drawing boards today, designed to provide more electric energy for more homes, businesses and industries.

We like to think that our growth plans and our expansion expenditures are a forecast of the future... that with proper effort, all of us in our service area face GROWTH UNLIMITED.

## How Use Of Water May END YOUR CONSTIPATION WORRIES

As you grow older, your system begins to dry out. This is true of your digestive system, and it may lead to constipation. SERUTAN, taken daily with plenty of water, produces a smooth gel that provides the proper moisture, bulk and peristaltic stimulation to help end your constipation worries.

SERUTAN is the all-vegetable laxative aid that moistens hard, dry food wastes and forms it for easy, regular elimination. SERUTAN is entirely different from harsh chemical pills, salts, bran or oils. Take SERUTAN daily with water and enjoy regular elimination or your money back.

## LOCAL BUSINESS . . .

S. S. Talbert, Ph. D.  
Chairman, Dept. of Journalism  
University of Mississippi

"There is no such thing as 'prime space' in newspapers. . . Every advertiser benefits from everything in the newspaper. He buys the support of the whole newspaper. In contrast, he certainly can't draw benefits from a full day's run on radio or TV," comments one of the nation's leading food-store merchants.

The grocer was speaking to a group of small retailers.

He explained that everything in the newspaper lends some attraction to even the smallest advertisement.

"We know that when the newspaper has good local news

coverage, good feature articles, or an interesting editorial page the content is part of our supporting program.

"As a matter of policy our stores use full page displays, but we are aware that smaller advertisers get the same support we get," he said.

"Ten, twenty, or thirty dollars, depending upon your local rates, will buy you the attention value commanded by a whole newspaper. This makes every effective consumer in your community a potential reader of any newspaper ad."

"What could you get with the same money in other media? On the air, an accidental audience of limited quantity and uncertain quality. It could buy a few pieces of direct mail or circulars of even more questionable value. But some merchants continue to pour down free running drains."

The grocer added: "I challenge any small retailer to use a two inch newspaper ad consistently for two months. If you are convinced of its comparative superiority at the end of that time, I stand branded as a public liar."

# Ask Amy

BY AMY ADAMS

## THERE'S 'INTEREST' IN MARRIAGE, TOO

**Dear Amy:**  
Should a girl give all her money to the man she's going to marry? I buy a home because he has no money saved. I say "No" and he says "Yes."

**Two Old Maids**  
If the man in question is prepared to give all the things in life money can't buy, I say, "Yes!" I bank only gives interest!

**Dear Amy:**  
I've had this problem on my mind a long time. Recently a family with whom we are very friendly came to our house for supper. They had a daughter, 13, who is just my age. While I was helping my mother prepare supper, this girl went into my sister's and my bedroom and snooped. She even used some of my sister's earty aids. I told her my sister couldn't like that but she used them anyway. Her sister, age 6, then came into the room and started snooping, too. And, Amy, to my goodness, she told her sister to stop snooping because nobody likes a snooper! She has been here before and I've told her to please quit snooping. But everytime she comes, she must forget because she always snoops. I think if I've told her once, I've told her a dozen times. When I go to her house, I don't look in her closets or drawers. How can I stop her? Wishing To Stop A Snooper

**Dear Amy:**  
If you're a good friend of hers, her a favor and tell her mother, please her parents put a stop to her snooping, she will be asked to leave more homes than she'll be invited into!

**Dear Amy:**  
My trouble is my wife. I am 62 and she is 62. She hasn't slept with me for 6 years now. I don't know what is wrong with her. I don't fight with her. I don't drink or gamble and I don't go anywhere. Being a paint contractor for 40 years, I have been in plenty of women's homes. They have made me all kinds of offers but I don't want to cheat on her. I think I have waited long enough. Can you tell me what to do?

**Painting and Panting**  
To tell you the unvarnished truth, you have been getting the brush-off. If she is not sharing your bed, what's stopping you from sharing hers?

**Dear Amy:**  
I am 15 years old and in my second year of high. I met a boy at the movies and fell in love at first sight. But you see, when I found out he was 18, I told him I was 17 but I'm really 15. I asked him if he would ever go out with a girl of 15 and he gave me a straight answer, "NO!" I don't want to tell him and spoil it because he loves me and I love him very, very much. What should I do?

**Confused and In Love**  
It's a woman's prerogative (and permissible) to tell a white lie about her age... but you are not yet a woman! Tell the truth and take your chances.

**Dear Amy:**  
I have been married only a year and a half and they have been very happy days. Not too long ago, my husband told me he was leaving me and the next day he did. I was shocked because he always told me that he loved me. I love him very much but I don't want to ask him to come back. He is the one who left. Could you please tell me what to do?

**R.D.**  
A man who loves his wife wouldn't leave her without reason. Swallow your pride and get in touch with him. Don't ask him to come back before he tells you why he left!

**PERSONAL to Not to Blame:**  
If your husband's words are sharp, maybe it's from trying to get them in edgewise. Don't corner the conversation!

**Please address all letters to:**

**Farm Interphone—New Time-Saver For Farmers**  
A practical new communications service will be introduced in Texas in July to help farmers get more things done without so much wear and tear on them or others in their families.

The farm interphone, a compact communications package which will be available in July, should prove to be a real time-saver for hard-working farm families. It is designed to do three big jobs for you who live and work on the farm.

The first thing it does is provide regular telephone service between the house, barn, other farm buildings and key outside work areas. Just imagine how many hours and steps this will save a busy farmer and his family in a month.

Second, the farm telephone is hooked up with special loudspeaker-microphones that make it possible to answer the phone hands free—without interrupting your work. Outside calls may be answered without leaving the barn.

Finally, the farm interphone is installed so that the sounds of the farm buildings can be heard in the house at night. It's a kind of "nightwatchman" that tells you of any unusual activities, livestock in need of attention, a pump or other equipment that might act up, or even the start of fire.

A good farmer is a mighty busy man these days. And the farm interphone is designed to help him make the most of his time and energy. If you'd like to learn more about how the farm interphone can help you, just call the telephone business office in Hamlin or ask any telephone serviceman.

# RIDING CLUB, RODEO SPONSOR

The Hamlin Riding Club, sponsor of the Junior Rodeo, was organized August 4, 1958, by a group of adults of the community who sought diversion, recreation and entertainment in horse riding activities. Since women and children fished to participate it was decided that the Hamlin group would be a riding club rather than a Sheriff's Posse.

The organization was headed temporarily by W. D. Adair, who donated much time in getting the organization underway. There were 111 members the first year.

## STARTED IN AUGUST, 1958

L. C. Bonds was elected to serve as the first president. During this year a permanent steel arena and chutes were erected north of Hamlin on the Aspermont Highway. The first event held at the new arena was a cutting horse contest, under the direction of the West Central Cutting Horse Association, on October 18, 1958.

Dr. E. J. Hawkins was president of the club the second year and the club continued to expand. Fences were built, a concession stand was purchased and bleachers were started. The first junior rodeo was held on August 13, 14 and 15, 1959, with 80 contestants. Also girl's barrel races and matched ropings were held that year.

During LaFoy Patterson's tenure of office, 1960, water was piped to the arena and five more sections of seats were donated. The official uni-

form of green shirts, white jeans and silver bell hats was selected.

Dr. Hawkins was elected president again this year. Other officers are L. C. Bonds, vice-president; C. R. Reynolds Jr., secretary-treasurer; Ed Branscum and Herman Woods, arena directors; L. A. Johnson, parade boss; John Kent Jones, LaFoy Patterson and Don Elmore, directors-at-large; C. R. Reynolds Sr., publicity chairman and J. C. Turner, membership chairman.

Each year the club plans to expand the scope and facilities of the rodeo as well as sponsor other rodeo events from time to time.

Approximately 300 to 400 contestants are expected to participate in the rodeo, which this year is approved by the American Junior Rodeo Association and the points earned here will count in the national standings.

## HIGHWAY DEPARTMENT URGING TEXANS TO SEE TEXAS FIRST

AUSTIN, TEXAS JUNE 6.—Why not see Texas this year from a tourist's point of view?

That is the vacation suggestion offered to Texas residents by the state's official tourist agency, the Texas Highway Department.

"Many Texans have never seen their own State through a tourist's eyes," explained State Highway Engineer D. C. Greer. "Some Texas residents plan out-of-state vacations because they are unaware of the wonderful variety of scenery, recreation, and historical attractions in Texas."

Greer offered these vacation hints:

For more relaxation and enjoyment, plan your vacation early.

For help in planning it, write to the Texas Highway Department, P. O. Box 5064, Austin 31, Texas.

The Highway Department maintains a complete file of descriptive and informative literature on points of interest and special events throughout the State. This material, including Highway Department publications such as the 1961 Official Highway Travel Map, is available free of charge to prospective Texas vacationers.

Vacation outings ranging from full-fledged trips of a week or more down to shorter drives on highways or weekends can be planned with the help of these free informative pieces. Vacationers writing for information should specify the area of the State they wish to visit and indicate their preference of things to see and do.

Once the vacationer is on his way, more than 60,000 miles of smooth Texas highways make quickly and easily accessible points of historical, scenic, and recreational interest.

"Yet Texas tourist attractions often pass unnoticed by many Texas living only a few miles away," he said. "It is like the famous 'acres of diamonds' story in which a man traveled all over the world seeking wealth, only to discover that he could have found it in his own backyard."

"Texans who know their State are aware that the Lone Star State has an unequalled

variety of scenery, climate, and tourist attractions within a few hour's drive. It is unfortunate that we have no funds to make these attractions known to residents of other States through tourist advertising."

Texas has one National Park (Big Bend), four National Forests, more than 600 miles of coastline, more than 50 mountains over 6,000 feet high, and numerous scenic underground caverns. Greer said, as well as many man-made attractions — artificial inland lakes, old cattle trails, restored forts, monuments, and museums. More than 50 State Parks are available for outdoor recreation including water sports and camping.

The Texas Highway Department maintains some 1,000 Roadside Parks offering travelers a chance to rest or picnic.

"Plan your vacation with the aid of the free travel information available through the Highway Department," Greer urged, "then drive on a Texas highway to see Texas from a tourist's-eye view."

## Four From Here Accepted For McMurry Band

ABILENE — Four students from Hamlin have been accepted for the 1961 summer band and twirling school at McMurry College, July, 16-29.

Enrollment is continuing, and the final count should run between 300 and 400 students, Dr. Raymond T. Bynum, director, has announced.

Students participate in two public concerts during the two-week school. Their course of instruction includes both band work and section training on individual instruments.

The school includes a well-planned recreational program in addition to the band work.

Dr. Bynum, who directs the McMurry College Band, will begin his 15th year at the college next fall. For many years he directed the Abilene High School Band.

Students from Hamlin who have been accepted so far include: Gary Jay, Freddie Shave, Caren Knabel, Judy Fitzgerald.

Specialist, all from College Station were at the camp as instructors. Curly Hays of West Texas Utilities Company was swimming instructor.

## TUXEDO NEWS

By MRS. CLYDE PRITCHARD

Like we said last week, we would probably here of more damage from the storms.

A big Cottonwood tree fell on the top of the Ben Ashburn home. Mr. and Mrs. Newhouse had a room blown off and other inside damages. Joe Carltons had a big window blown out part of Craig Stephens roof blew off. A barn blew down on Bill Pritchard's land, south west of here. Dude Apperson had four trailers to blow over during the first storm and the next one set them back on their wheels. Several of the better homes in the community leaked and water ran in under doors and windows that had not been doing that. I am sure there are other things I have not heard about.

But now the past few days the rain and storms have ceased and the sun has been shining and if these conditions continue the farmers will be frantically planting practically all the crops over. We are thankful for the moisture and there was no one injured.

## TREMENDOUS TRIFLES

### THE JEST THAT AIDED OUR LIBERTIES

The law of Habeas Corpus—one of the keystones of our present day liberties—was passed because of a joke about the great size of one of those voting for it.

Before the reign of Charles II in England, a man could be convicted of almost any crime on the calendar without being allowed to make his defense before the court or even to appear at his own trial.

Then the law of Habeas Corpus was passed. The Latin phrase said "Produce the Body"—Produce the prisoner and bring him before the court which is trying him.

It was a tremendous victory for human rights—a great step in progress of civil liberty. It is regarded as one of the greatest achievements of the reign of Charles II, altho in fact, Charles did not favor it, though because of the general unrest and public demand for it, he did not dare oppose it.

But what did a fat lord have to do with it? A fat lord had everything to do with it. The bill was passed because one very fat lord was counted as 10. Bishop Burnet recorded the story as follows:

"Lord Grey and Lord Norreys were named to be the tellers. Lord Norreys being a man subject to vapours, was not at all times attentive to what he was doing. So, a very fat lord coming in, Lord Grey counted him for ten, as a jest at first; but seeing Lord Norreys had not observed it, he went on with his misreckoning of ten. So it was reported to the house and declared that they, that were for the bill, were in the majority."

Altho the members of the Parliament who were for and against the bill were very nearly tied, the opponents of the bill did not expect the measure to pass. When the count was reported as 57 for the bill and 55 against it, they showed surprise. Lord Shaftesbury, who championed the bill and feared a mistake had been made, immediately rose and delivered a long speech, until several Peers had gone in and come out. When he sat down it was then impossible to recount the vote.

The Parliament Journal for that day shows only 107 members present during the entire day, five less than the recorded vote on this important bill.

So if the fat lord had not been very, very fat, Lord Grey would not have had his little jest, or as a consequence, his very important majority. The law of Habeas Corpus and the interest of civil justice would have received a great setback.

## TWO TOP MOVIES BOOKED THIS WEEKEND AT HAMLIN DRIVE IN

Top entertainment is booked this weekend at the Hamlin Drive In Sunday through Wednesday and at the Rogue Sunday only. Booked together this week is Jerry Wald's "Return to Peyton Place" and "Atlantis, the Lost Continent."

Filmed in Cinemascope and Color, "Return to Peyton Place" opens as Allison MacKenzie (Carol Lynley) completes her first novel and it attracts favorable attention from Jeff Chandler, successful, happily married publisher—old enough to be her father. He brings her to New York and for months they work together to build the tone into a best seller. She thinks she is in love with him, but he is sufficiently wise to recognize the emotion as girlish infatuation and will have no part of it. The book is published. Many residents of Peyton Place resent it, especially bigoted Mary Astor, because of its frank treatment of their past lives. It is ordered out of the high school library. Robert Sterling, principal and Allison's stepfather, refuses to comply and is fired. Teamed with "Return to Peyton Place," "Atlantis, the Lost Continent" is filmed in Metrocolor. Lured to Atlantis by a beautiful Princess, Joyce Taylor, Greek fisherman Anthony Hall learns that the continent is inhabited by cruel, unscrupulous people, living to torture its slaves and ultimately conquer the world with its advanced knowledge of scientific weapons. Anthony himself is enslaved by John Dall, War Minister of Atlantis, but after going through a fight to the death with a giant slave, he emerges the winner and is freed by law. Learning of Dall's plans to destroy the world, Hall turns his efforts to frustrating the evil man's plans. On the appointed day of war, however, a giant volcano erupts, spewing its own death and destruction with waves of molten lava which pour over the entire city. Buildings and humans alike are swept into the sea, until Atlantis itself sinks beneath it.
